ARGUYANOVA MADINA

Student, Developer, Beginner in Data Science

@ arguianova.mr@phystech.edu +7 (985) 727-26-33
https://github.com/The-beep-beep Moscow, Russia

EDUCATION

Moscow Institute of Physics and Technology

Bachelor of Applied Mathematics and Physics

September 2019 - Present Moscow, Russia

TECHNICAL SKILLS

Machine Learning and Deep Learning
Game Development
Industrial Programming in C/C++
Engineering skills
Linear Algebra, Math Analysis
Physics and Theoretical Mechanics

SOFTWARE SKILLS

- C/C++, Python (PyTorch, NumPy), Verilog
- SQL
- OpenGL, SFML
- TeX, LaTeX
- Linux OS, Unix
- Git

SKILLS INTERESTS

Languages:

- English B1, Russian

Sports:

- Football
- Acrobatics, Gymnastics
- Volleyball

Interests:

- Neural Networks
- Guitar, piano
- Singing

MOTIVATION

In the early years of university I was interested in programming microcontrollers and low level devices. Now I've started my journey in machine learning and neural networks and want to gain experience in large industrial projects. I am looking for interesting tasks to apply and expand the knowledge available and ready for new ideas.

PROJECTS

KoldunKiller

- arcade game where you should win villian teacher using books, SFML based

Adapter PS2 -> COM-port for keyboard

- message transmitter with a keyboard as an external interface

Ultrasonic levitator

- levitator of ultrasonic emitters and arduino nano

COURSES

- Computer Architecture, Intel iLab
- Basic Maching Learning, MIPT
- White and Yellow Belts in C++, Yandex
- Data Science, Yandex Practicum
